

DIGITAL COMPANY PROFILE · 2026

Your Strategic Textile Sourcing Partner in Pakistan

Independent sourcing coordination. Technical textile insight. Disciplined follow-through from development to shipment readiness.

SINCE 2005

FAISALABAD

GLOBAL SOURCING

One Pakistan sourcing office · Multiple qualified manufacturing routes · One accountable coordination point

Independent sourcing. One accountable point.

Since 2005, R.N. Textiles has helped international buyers translate product requirements into practical sourcing routes across Pakistan's textile industry.

01 Buyer-first coordination

One focused sourcing point across selected spinning, weaving, processing and made-up capabilities.

02 Technical alignment

Construction, yarn, weave, finish, quality and delivery requirements aligned before execution.

03 Local market access

Close to Faisalabad's yarn, weaving, processing and home-textile ecosystem.

04 Long-term follow-through

Transparent communication, practical problem-solving and disciplined coordination through shipment readiness.

ONE OFFICE · MULTIPLE CAPABILITIES

Independent follow-up from development to dispatch.

Focused capabilities. Flexible sourcing routes.

A selected capability view - enough technical depth to start the right conversation without turning the profile into a catalogue.

R.N. SIGNATURE EDITIONS · HOSPITALITY SIGNATURE 2027

Current curated edition available on request

GREIGE & FINISHED

Percalé · sateen · twill · drill · woven constructions

HOME & HOSPITALITY

Bed linen · hotel whites · stripe sateen · custom make-up

CUSTOM / TECHNICAL

FR · water repellent · anti-static · performance routes

JACQUARD & DOBBY

Decorative wovens · dobby · jacquard · custom structures

TOWELS & BATHROBES

Hospitality · institutional · retail routes

WORKWEAR

Uniform fabrics · durable woven constructions

One enquiry. One coordinated sourcing process.

R.N. Textiles is not tied to a single factory. Each program is assessed around its technical, commercial, quality and delivery priorities before the manufacturing route is coordinated.

REQUIREMENT FIT

End use · construction · quantity · target delivery

CAPABILITY FIT

Spinning · weaving · processing · made-ups

PROGRAM FIT

Quality · compliance · lead time · commercial realities

Execution built around accountability, not hand-offs.

Five disciplined stages keep the buyer requirement visible from definition to shipment readiness.

ONE ACCOUNTABLE ROUTE

Independent follow-up from development to dispatch.

01

DEFINE

End use · construction · quantity · delivery

02

MATCH

Capability route · commercial fit

03

DEVELOP

Sampling · approvals · lab / technical

04

CONTROL

Production follow-up · inspection · issue escalation

05

READY

Packing · documentation · shipment readiness

FROM DEVELOPMENT TO DISPATCH

Independent follow-up · fewer hand-off gaps

BUYER BENEFIT

- Earlier issue visibility
- Stronger shipment readiness
- One accountable coordination route

Aligned to the selected program.

Certification pathways, testing and inspection are matched to the selected manufacturing route and confirmed for the relevant facility, product scope and validity.

OEKO-TEX® Standard 100

ISO 9001:2015

GOTS / GRS

Sedex / SMETA

BSCI

Better Cotton

ZDHC pathways

Lab testing / inspection

Availability is mill-, facility-, product- and program-specific and remains subject to verification.

TRACEABILITY SUPPORT

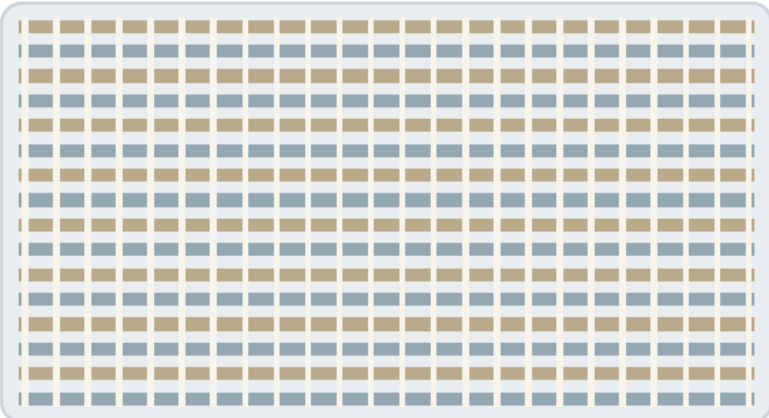

Mill → Yarn → Fibre → Construction → Finish → Testing → Packing

Supporting information follows the selected route and available supplier documentation.

Construction intelligence, visualized.

Enter your construction · visualize interlacing · calculate a preliminary estimate · request physical confirmation.

LIVE CONSTRUCTION VISUAL · ENGINEERING VIEW
